Junior Olympiad and Kangaroo
2018

Aarush Garg

of

German Swiss International School

is awarded a

CERTIFICATE OF DISTINCTION

Professor Chris Budd OBE
Chairman, UK Mathematics Trust

The Junior Olympiad and Kangaroo are the follow-on rounds for the Junior Mathematical Challenge and are organised by the UK Mathematics Trust. The top scoring 1200 or so JMC pupils are invited to participate in the Junior Mathematical Olympiad, and the next 6000 are invited to participate in the Junior Kangaroo.

The Olympiad is a two-hour examination with two sections. Section A contains ten questions to which only answers are required, but which require careful thought. Section B contains six questions; candidates are required to write fully detailed solutions. The knowledge and skills required are often beyond the range of normal school work and outstandingly successful candidates will receive a medal.

The one-hour multiple choice Junior Kangaroo requires the use of logic as well as mathematical understanding to solve amusing and thought-provoking questions.
